

# Partners-in-Education (PiE)

# Project Statement

Partners-in-Education (PiE) is a program started by the Kogics Foundation with the aim of developing and fostering a partnership between underprivileged schools, primarily in the rural areas in and around Dehradun, and private schools, businesses, corporates, NGOs, and individuals -- in an effort to enhance the quality of education in the rural schools, and to provide good exposure to the rural kids—so that they become better equipped to progress in today's world.

Partners-in-Education

Adopt-a-school

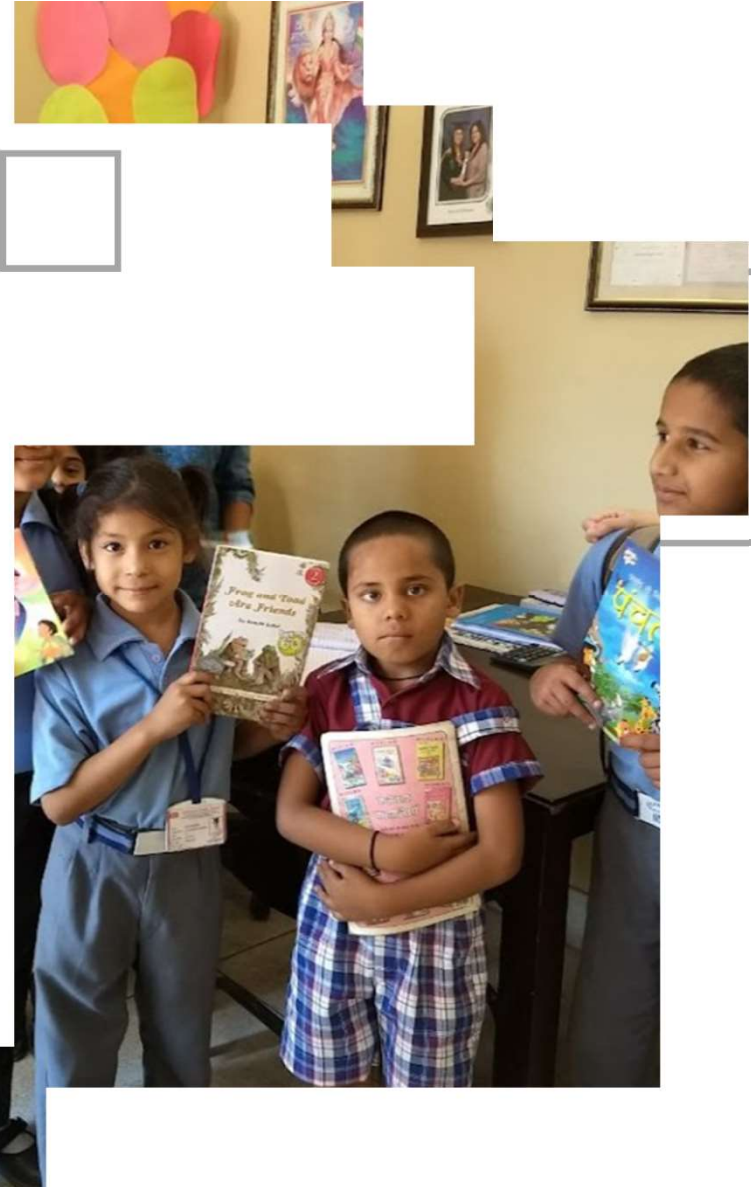

Sahyog

# Adopt-a-School

Under this program, entities (Schools, NGOs, corporates etc.) can adopt an underprivileged school for a duration of one year, and can provide them help in the following ways:

- Conduct at least 3 events for children during the year. This can include events like competitions, activities, school visits etc.
- Conduct at least 3 teacher events during the year. This can include teacher training sessions, teacher interactions etc.
- Make at least one donation of stationary, equipment, etc., during the year

# Sahyog

Under this program, entities (Schools, NGOs, corporates, individuals etc.) can sign up for helping an underprivileged school via events and interactions — as and when desired. Help can be provided in any form, such as:

- Donations of supplies (books, notebooks, stationery, uniform etc.)
- Volunteering
- Mentoring sessions
- After-school tutoring etc.

# About Kogics Foundation

The **Kogics Foundation** is a public charitable trust registered at Dehradun, India.

The Kogics Foundation has been working in the education technology segment since 2014. Its flagship ed-tech product – Kojo – is used in over 180 countries around the world, and is now also part of the GOA SCERT coding curriculum.

Since 2014, the Kogics Foundation has been setting up computer labs in underprivileged schools of Uttarakhand, and providing children an opportunity to learn 21st century skills via coding in Kojo. The foundation has also been providing help to schools to set up libraries to encourage good reading habits in kids. Another big area of work for the foundation has been teacher-training.

The Kogics Foundation is now expanding its offerings to provide the benefits of new ideas in education – to a larger and larger number of kids in the rural areas of Uttarakhand.
